

Sales Systems

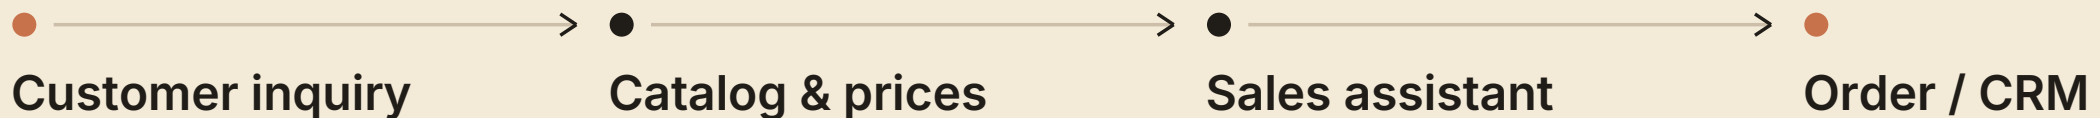

01

— From USD 350 · First stage

I build a connected sales system that answers product questions, qualifies inquiries and moves them into your sales process.

HOW THE SYSTEM WORKS

Connected knowledge

Your catalog, prices and stock behind the answers.

A path to the order

Needs, product selection, draft quotes and orders.

Your team in control

CRM records and handoff when a person needs to decide.

RELEVANT EXPERIENCE

NF ELIT: built and deployed the website assistant for product and service questions.

Describe your task in your own words.

Outsourced Online Store

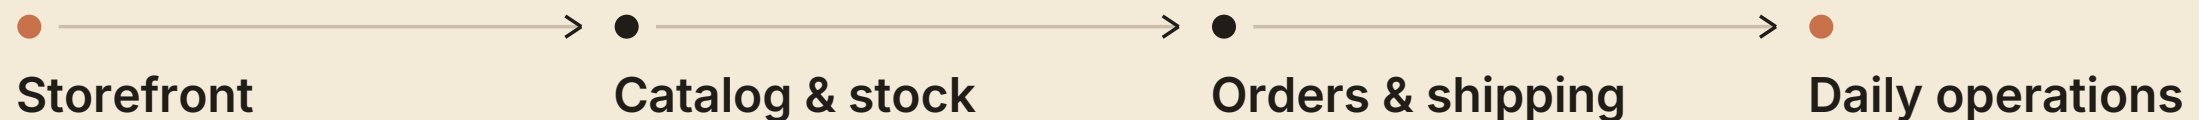

— From USD 500 · First stage

02

I build your online store or take over its day-to-day operation, keeping the storefront, catalog, orders and content connected.

HOW THE SYSTEM WORKS

Storefront & checkout

Design, mobile experience and the path to purchase.

Catalog & operations

Products, inventory, payments, delivery and marketplace connections.

Ongoing management

Listings, content, promotions, fixes and a monthly work report.

RELEVANT EXPERIENCE

Shopify, Amazon and eBay experience. Set up Amazon sales of birch plywood children's furniture for a private client.

Describe your task in your own words.

Company Knowledge and Internal Agents

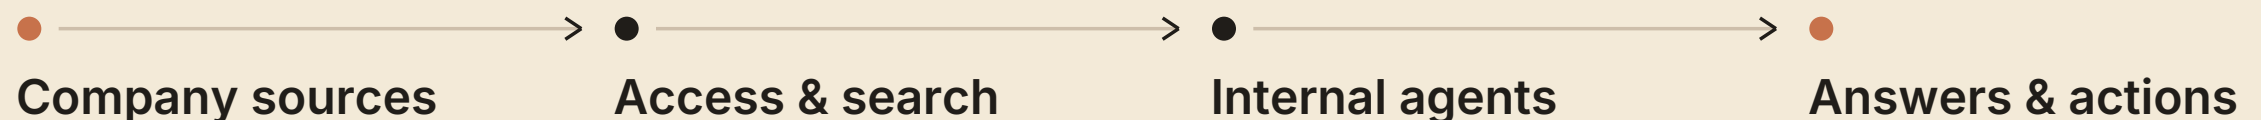

— From USD 400 · First stage

03

I organize company knowledge and connect internal agents so your team can find answers with sources and carry out agreed tasks.

HOW THE SYSTEM WORKS

A shared knowledge base

Documents, procedures, company data and a structured wiki.

Answers with sources

Search and a team assistant with access permissions.

Agents for daily work

Document drafts, status checks, reports and agreed system actions.

RELEVANT EXPERIENCE

NF ELIT: built and deployed an internal consultant connected to company materials and live databases.

Describe your task in your own words.

Business Process Automation

— From USD 300 · First stage

04

I connect incoming documents, business data and working systems into a process that handles routine steps and brings exceptions to your team.

HOW THE SYSTEM WORKS

From input to action

Read documents, extract fields and check them against your data.

Connected operations

Purchasing, orders, warehouse, logistics and management reporting.

Control at each step

Logs, exception handling and scenario-based acceptance.

RELEVANT EXPERIENCE

NF Prime: built a freight dispatch system that assembles load setups around equipment and delivery constraints.

Describe your task in your own words.

Brand Voice and Content Production

05

— From USD 250/month · 8 posts · 1 platform

I turn your material and point of view into a content system with a recognizable voice, approval steps and a publishing schedule.

HOW THE SYSTEM WORKS

A voice that carries

Author or company voice across formats and languages.

Connected production

Articles, visuals, video, podcasts and audio from your material.

A publishing process

Your review, scheduled distribution and visibility in AI search.

RELEVANT EXPERIENCE

NF ELIT: I regularly create content for the company.

Describe your task in your own words.

Interactive Apps

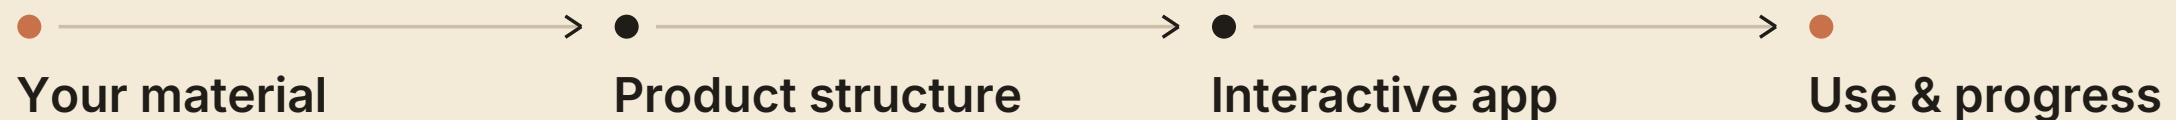

06

— From USD 600 · First stage

I turn your material, method or product into an application people can use: to learn, calculate, configure a product or practice a task.

HOW THE SYSTEM WORKS

A structured product

A clear route through your content, method or working task.

Useful interaction

Exercises, calculators, configurators, feedback and progress.

Connected guidance

An AI mentor grounded in your material; web and mobile as scoped.

RELEVANT EXPERIENCE

AI Academy, Modern Python, English ↔ Português and Truck Driver English: public demos and GitHub code.

Describe your task in your own words.

AI Personas

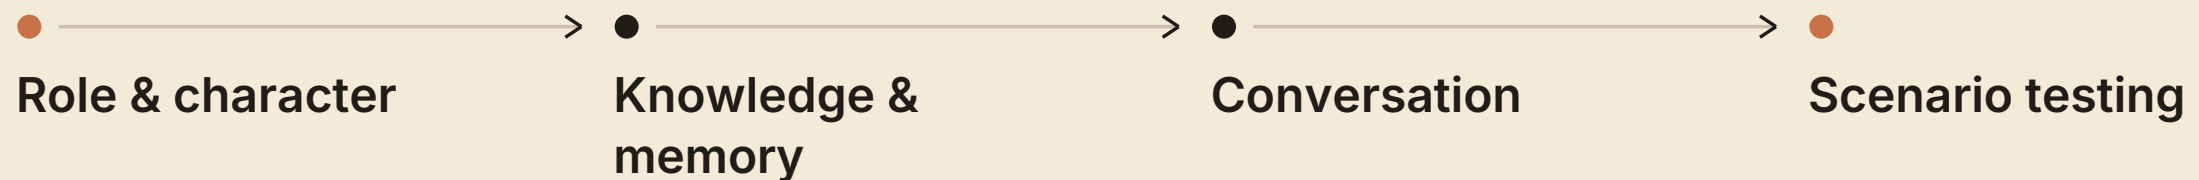

07

From USD 400 · First stage

I create assistants, conversation partners and characters with a defined personality, memory and way of speaking, then test how they behave.

HOW THE SYSTEM WORKS

Character with purpose

Personal assistants, brand characters and expert digital twins.

Consistent behavior

Role, tone, knowledge, memory and defined boundaries.

Tested conversations

Sales practice or audience dialogue; voice and appearance when needed.

RELEVANT EXPERIENCE

Private projects for the Brazilian market: personal assistants, conversation partners and characters with a sense of humor.

Describe your task in your own words.
