

Sales Systems

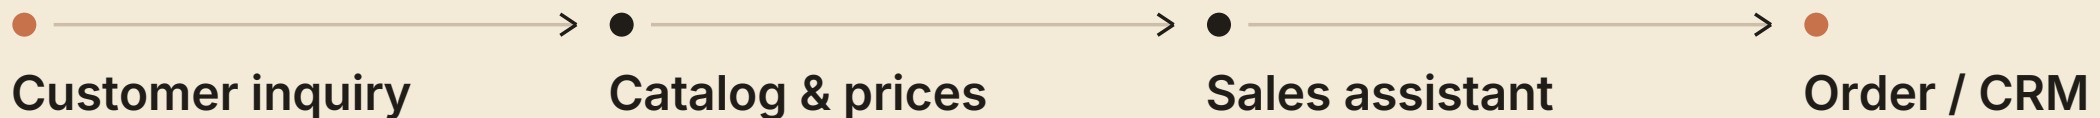

01

— From USD 350 · First stage

I build a connected sales system that answers product questions, qualifies inquiries and moves them into your sales process.

HOW THE SYSTEM WORKS

Connected knowledge

Your catalog, prices and stock behind the answers.

A path to the order

Needs, product selection, draft quotes and orders.

Your team in control

CRM records and handoff when a person needs to decide.

RELEVANT EXPERIENCE

NF ELIT: built and deployed the website assistant for product and service questions.

Describe your task in your own words.
